Work Smarter with the EAP

Experience

With 20 years of experience, RBH offers an EAP (Employee Assistance Program) that can help workplaces run more smoothly and productively, while also helping employees resolve problems that may interfere with their work, families, and life at home. The EAP covers all employees and their dependents, living at or away from home, as well as household members, related or not. EAP services are always confidential.

Quality Indicators

Counseling Services – the EAP provides 24-hour, toll-free crisis help for all employees and their families, as well as **3 or 6 face-to-face counseling sessions depending on which package your employer offers.** Counseling is available for a variety of problems such as family, parenting, relationship, stress, anxiety, and other challenges. Convenient access to online consultations with licensed counselors is also provided with the RBH EAP, offering a simple way to try counseling for the first time or to get support when time is limited.

Worksite Services – the EAP includes utilization and satisfaction reports, responsive account management, critical incident response, and employee trainings. RBH works closely with supervisors, so when performance issues arise at work, they know what to do and expect. Supervisor services include orientations and trainings, online resources, unlimited consultations with EAP clinicians, support with the employee referral process, and follow-up if referrals are made.
